Return to CIA Library

25X1

Laying of the second oil pipe line from the PLOESTI District to CONSTANTA was started at the beginning of September. There were four construction sites. Progress is encouraged by the Government by all means available.

☐ Comment:

a. There were two PLOESTI-CONSTANTA pipe lines before World War II:

Gasoline pipe line, 12.5-inch diameter

Petroleum pipe line, 9-inch diameter, from BAICOI via PLOESTI to BUZAU and 10-inch diameter from BUZAU to CONSTANTA.

b. If this report is confirmed, the new PLOESTI-CONSTANTA pipe line may not be the second, but the third PLOESTI-CONSTANTA pipe line.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 15 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
